The Question:

How to manage **employee communications** and **plan** for a **culture of engagement**

A Story

The story

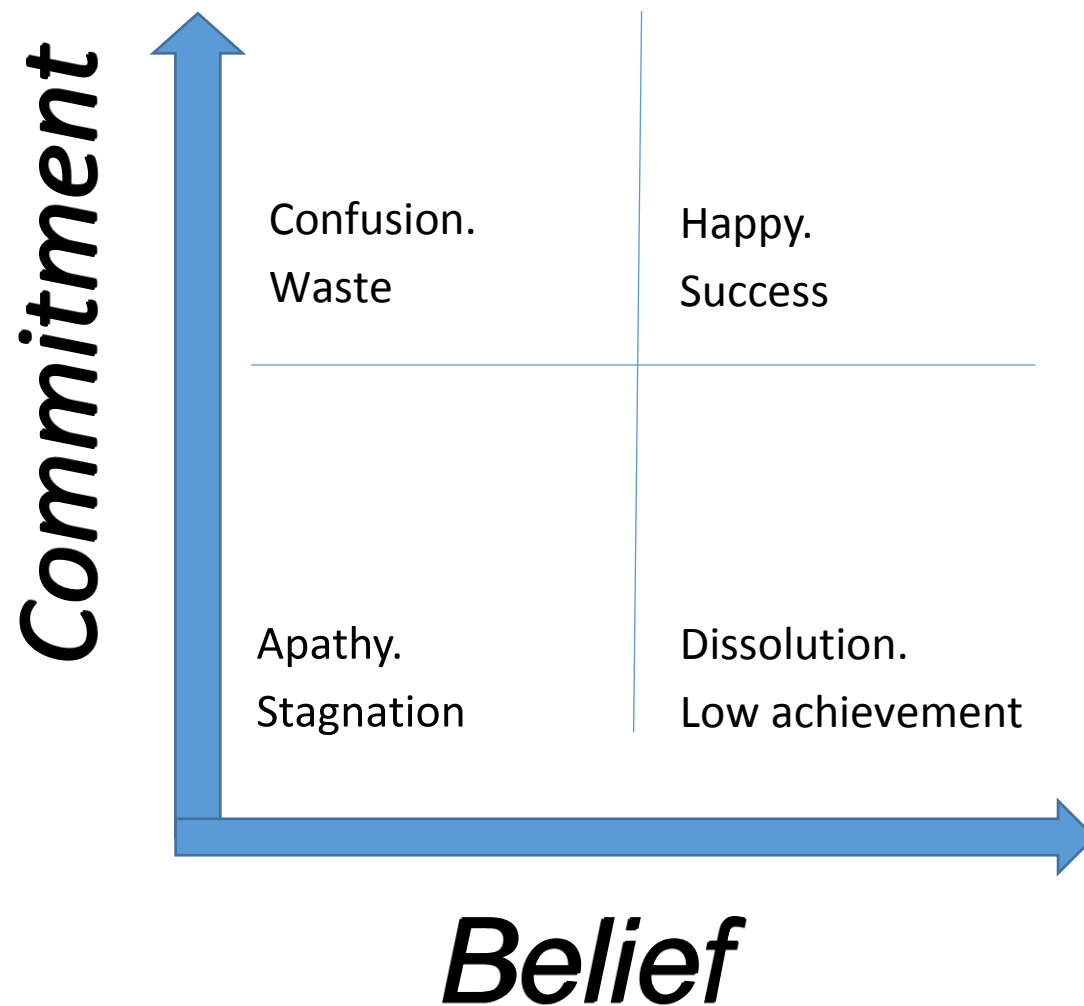

*The Partnership's ultimate **Purpose** is the happiness of all its members through their worthwhile and satisfying employment in a successful business*

Engagement

I'd just like to say that I actually kind of found myself in awe of the way that it was all proposed....

... The amount of Partner engagement, not just forum level but also every single Partner being told about it...

The engagement axis

Be clear about your **purpose**, ensuring your **culture** develops effective **communication**; reinforcing both **rights** and **responsibilities** to foster **co-owner engagement...**

Questions and Discussions
