THE EOA

As a membership organisation we support businesses to explore and transition to employee ownership as well as grow and develop as employee owned businesses.

As the leading voice for employee ownership in the UK we work in close partnership with our members to champion, promote and provide insight into the business case for more employee ownership as part of our mission to grow the sector in the UK.

“As an established employee owned company, the EOA plays an important part in enabling our employees to affirm and celebrate our business, as well as contributing to their personal development and well-being through connecting with and learning from the wider employee ownership community using the EOA network.”
